Tips:

1. CLTC and WLTC comprehensive driving range and comprehensive battery driving range data were obtained through testing by a third-party laboratory certified by Li Auto. The actual vehicle driving range may vary due to various external factors, such as climate conditions, driving style, road conditions, vehicle load, etc.

2. The range and charging time are affected by driving habits, natural environment, battery life and other objective factors. The parameter configuration information is for reference only. For the purpose of design and use safety, Li Auto has the right to adjust the parameters and configuration within the scope of laws and regulations. The specific parameters and configuration are subject to the actual vehicle for sale.

3. The driving assistance system is an assisting function and cannot cope with all traffic, weather and road conditions. The driver should take active control of the vehicle at all times. Take caution when using this function in complex traffic conditions, on wet, slippery, water-logged or muddy roads, in poor visibility, on rugged mountain terrain or at highway entrances and exits.

4. The Enhanced AES includes automatic emergency steering capabilities for extreme scenarios such as consecutive dual evasive maneuvers and front-and-rear encirclement protection.

5. The areas covered in Nappa leather are the perforated sections of the seat cushion and backrest.

6. The English version is for reference only. In case of any discrepancy, the Chinese version shall prevail.
