Technical Specification

Length	4950mm
Width	1935mm
Height	- 1670mm (Coil Spring) - 1655mm (Air Spring)
Wheelbase	3000mm
Passenger capacity	5
Seat layout	2-3
CLTC Estimated Range	- 720km (RWD) - 660km (AWD)
5C Fast Charging Time	Charge for 10 Minutes, Travel up to 500 km.*

Exterior Color and Interior Upholstery

A new design for a pure electric vehicle

Streamlined Low-Drag Design	●
New 3D Halo Light	●
All Flush Side Windows & Full-Length Panoramic Roof	●
Tri-tone wrap-around cockpit design	●
Interior Ambient Lighting	256 Colors
Flat-Floor Interior	●
Paint color

Side front perception camera	8 MP ×2	
Side rear perception camera	8 MP ×2	
Rear perception camera	2 MP ×1	
Surround view camera	3 MP ×4	
Forward millimeter wave radar	●	
Ultrasonic radar	×12	
Assisted Driving Safety Monitoring (Visual + Steering Wheel)	●	
Steering wheel with vibration alert	●	
Attention Warning System	●	
VLA Driver Foundation Model		
Available nationwide on all roads, campuses, and underground garages		
VLA Command		
Available nationwide on all roads, campuses, and underground garages		
- Voice-activated departure: wake up assistance and plan route	●	
- Basic command interaction: driving and parking instructions	●	
- Combined command interaction: multi-step driving tasks	●	
- Proactive VLA feedback: clarifies unclear driver commands	●	
VLA Parking		
Available nationwide in all campuses and underground garages		
Point-to-point parking		
- Autonomous Pathfinding	●	
- Long-distance reversing/turning in dead-end roads	●	

<div><div><div>● Standard</div><div>○ Optional</div><div>● OTA Will Release</div><div>- N/A</div></div></div> <div>Li i6</div>	
- Intersection turn initiated by turn signal	●
- Roaming to find available parking space	●
- Pull-over parking at navigation destination	●
Enhanced Memory Parking	
- Spatial memory	●
- Support for saving all types of outdoor and garage parking spaces	●
- Custom parking space drawing and saving	●
- Multi-Level Parking Navigation (Ground-to-Basement)	●
- Automatic speed adjustment(ground roads and garages)	●
- Escape from tight spaces during reversing	●
- Obstacle avoidance and rerouting	●
- Autonomous gate passage	●
Smart Parking	
- Seamless dynamic gear shifting	●
- Parking position preference:(left, center, or right)	●
- Intelligent unparking	●
- Ultra-narrow space parking	●
- Turnaround parking	●
- Custom parking space drawing	●
- Automatic folding of side mirrors	●

<div><div><div>● Standard</div><div>○ Optional</div><div>● OTA Will Release</div><div>- N/A</div></div></div> <div>Li i6</div>	
Remote Parking	
- Park-in while leaving the vehicle	●
- Park-in with door closing	●
- Straight-line summon	●
VLA All-Scenario NOA	
Available on highways, urban ring roads, and city roads nationwide	
Navigation Assistance	
- Follow the Navigation Path	●
- Intelligent Speed Adjustment	●
Urban Intersection Navigation	
- Respond to Traffic Lights at Intersections	●
- Unprotected Left/Right Turns	●
- Start-Stop Control in Left-Turn/Through Movement Waiting Zones	●
- Navigate Complex Intersections	●
Autonomous Lane Change	
- Navigation Lane Change	●
- Overtaking Lane Change	●
- Congestion Negotiation Lane Change	●
Obstacle Avoidance and Detour	
- Construction Zone Avoidance	●
- Neighboring Vehicle Proximity Avoidance	●
- Dynamic Obstacle Circumvention (Vehicles/Pedestrians/Cyclists)	●
- General Obstacle Circumvention	●

<div><div><div>● Standard</div><div>○ Optional</div><div>● OTA Will Release</div><div>- N/A</div></div></div> <div>Li i6</div>	
- Using Opposite Lane for Circumvention	●
- Curbside parking in/out	●
- Reverse out of tight spots	●
Dedicated Lane Driving	
- Ramp entry and exit	●
- Main and Auxiliary Road Switching	●
- Left/Right Turn Dedicated Lane Navigation	●
- Autonomous ETC passage at highway toll stations	●
- Pulling out from the curb	●
- Pull-over parking	●
- U-turn	●
- Three-point turn	●
- Understanding Traffic Regulations: Recognition and Passage of Bus, Tidal-Flow, and Variable Lanes	●
Road Condition Awareness: Potholes, Speed Bumps, Roadworks, T-Junctions, Unlit Roads at Night, Main/Service Road Transitions, etc.	●
All-Scenario LCC	
Highways as well as urban beltways and roads across China	
Lane Keeping	
- Lane Keep Assist (LKA)	●
- Autonomous Lane Line Generation	●
Lane Switching	
- Lane change in response to turn signals	●

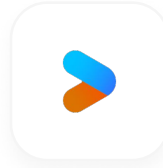

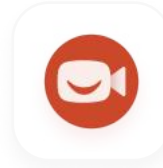

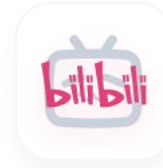

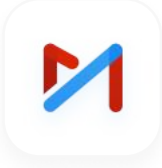

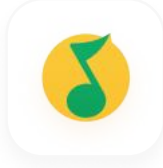

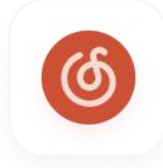

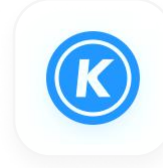

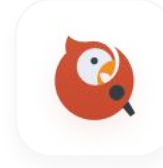

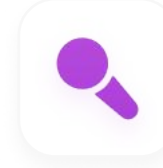

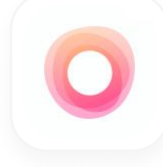

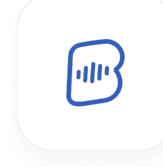

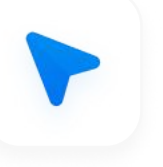

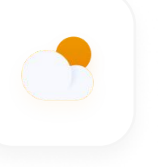

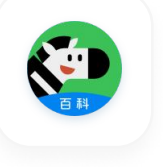

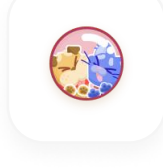

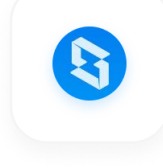

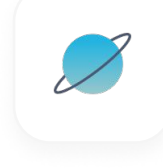

<div><div><div>● Standard</div><div>○ Optional</div><div>● OTA Will Release</div><div>- N/A</div></div></div>		Li i6
- Autonomous lane selection at merge/diverge junctions	●	
- Autonomous Lane Change on Highways	●	
Obstacle Avoidance and Detour		
- Obstacle Avoidance	●	
- Construction Scene Avoidance	●	
Intersection Management		
- Passing intersections in response to traffic lights	●	
- Autonomous Execution at Intersections	●	
- Congestion Negotiation	●	
Active Safety		
Emergency brake		
- Autonomous Emergency brake	●	
- Rear-Autonomous Emergency brake	●	
- General Obstacles-Autonomous Emergency brake	●	
- LowSpeed-Autonomous Emergency Brake	●	
- Front Crossing Traffic Assist /Brake	●	
- Rear Crossing Traffic Assist /Brake	●	
Emergency Avoidance		
- Emergency Lane Keeping	●	
- Autonomous Emergency Steering	●	
- Enhanced Automatic Emergency Steering (AES)*	●

## Warranty and Services

Vehicle warranty	For 5 years or 100,000 km
Limited warranty for battery, motor, and electric control system	For 8 years or 160,000 km
Mobile data	Three-year data worry-free solution ( 20 GB of free 5G data per month )
24/7 roadside assistance service	In-Warranty Period
Smart maintenance reminder	●
Smart emergency call and rescue	●
24/7 online service agents	●

- Tips:
1. CLTC and WLTC comprehensive driving range and comprehensive battery driving range data were obtained through testing by a third-party laboratory certified by Li Auto. The actual vehicle driving range may vary due to various external factors, such as climate conditions, driving style, road conditions, vehicle load, etc.

2. The range and charging time are affected by driving habits, natural environment, battery life and other objective factors. The parameter configuration information is for reference only. For the purpose of design and use safety, Li Auto has the right to adjust the parameters and configuration within the scope of laws and regulations. The specific parameters and configuration are subject to the actual vehicle for sale.

3. The drag coefficient is based on aerodynamic wind tunnel testing conducted by CATARC (China Automotive Technology & Research Center).

4. Li Auto Advanced Driver Assistance is an assistive function and cannot handle all traffic, weather, or road conditions. The driver must remain in full control of the vehicle at all times. Use with caution in complex or rapidly changing traffic scenarios, on icy, snowy, or wet roads, in standing water or muddy conditions, under poor visibility, on winding mountain roads, or when entering and exiting highways.

5. The Enhanced AES includes automatic emergency steering capabilities for extreme scenarios such as consecutive dual evasive maneuvers and front-and-rear encirclement protection.

6. The areas covered in Nappa leather are the perforated sections of the seat cushion and backrest.

7. The English version is for reference only. In case of any discrepancy, the Chinese version shall prevail.
